Reports on Compass at Berwick Fields PS

ACKNOWLEDGEMENT OF COUNTRY

We begin today by acknowledging the Bunerong people, Traditional Custodians of the land on which we gather, and pay our respects to their elders past and present.

We extend that respect to Aboriginal and Torres Strait Islander peoples watching today.

Welcome and thank you for taking the time to attend our:

Berwick Fields Ignite the Future Student Name **- 6B**
 Berwick Fields Primary School - 2024 - Semester One

Teacher: Classroom Teacher's Name

Home Group Year 6

Class Teacher's Comment
 [REDACTED] is a creative and cheerful member of the classroom. She has shown that she can work well in small groups and contributes well to class discussions. [REDACTED] takes pride in the presentation of her work as it is well presented and always neatly laid out. She has excelled in Mathematics this semester and has been apart of the Mathematics Extension Group, where she has further developed her Mathematic skills and knowledge. [REDACTED] has taken her role as JSC with great responsibility and sets an exemplary example of how to follow the school expectations. She has continued to develop her comprehension skills in reading by using sticky note thinking to represent her ideas on the text she is reading and can write logical paragraphs that link to a main idea. I look forward in working with [REDACTED] next semester.

Classroom Teacher Report

1. Work Habits
 - 5 Point Scale
2. English, Mathematics and Inquiry Learning
 - These blurbs explain the learning that has been undertaken by the students during the semester in the three areas.
 - Each Year Level will have a different statement, to match the learning they have been doing.

1

Work Habits

	Needs Attention	Acceptable	Good	Very Good	Excellent
Effort					●
Self management					●
Engaged in learning					●

2

English Learning

This semester in Grade Six, students have:

- Written different types of texts that are used to persuade, inform and entertain.
- Focussed on the importance of interesting beginnings in writing to engage the audience.
- Explored elements of narrative including exposition (story beginnings), rising action, climax, falling action and resolution (exciting endings).
- Crafted and presented persuasive speeches linked to government and elections.
- Been engaged in daily discussions where they have been encouraged to clarify content and challenge the ideas of others.
- Prepared content to share with others through Literature Circles in order to connect with our novels at a much deeper level.
- Been building their ability to use evidence from a text to support answers to comprehension questions.
- Evaluated the actions and traits of characters in texts.
- Discussed the author's purpose in both published and personal writing.
- Studied class novels and picture story books such as 'Holes' and 'Home to Mother'

Mathematics Learning

This semester in Grade Six, students have:

- Explored number properties such as factors, multiples, prime, composite, triangular and squared numbers.
- Investigated place value from thousandths to millions and beyond.
- Had opportunities to convert between units of measurement, for example, metres to centimetres.
- Read and interpreted a range of data and graphs and explored how these are used in the world beyond school.
- Justified their mathematical thinking using a range of strategies.
- Solved various worded problems using a range of mathematical strategies.
- Investigated a range of strategies to solve fractions equations, simplifying and making equivalent fractions.
- Explored the relationship between fractions, decimals and percentages.
- Researched the likelihood of the probability of events occurring and then represent probability outcomes as a fraction, decimal and percentage.
- Engaged in activities to build automatic recall of multiplication facts.

Inquiry Learning

This semester in Grade Six, students have:

- Explored the expression of emotions and how this can impact on relationships with others.
- Been provided with opportunities to experience various team roles including leadership, and to reflect on their performance in group tasks.
- Developed an understanding of the three levels of government in Australia.
- Explored the role of representative democracy in Australian society, the rights and responsibilities of Australian citizens and how individuals can make a difference.
- Investigated how Federal elections work and how bills become laws.
- Looked at Victoria's protected places including why they are protected and how we can achieve a balance between human impact and recreational use.
- Researched the various ecosystems found in Victoria and considered how they are each uniquely different.
- Identified the links between these areas and their significance to Indigenous Australians.

Classroom Teacher Report

1

1. Support Learning at Home and At School

- This comment will show what the school will continue to do for your child and what you can do at home to support your child's learning.

2. Program for Students with Disabilities

- This report will only appear for students who are funded to give parents more information on their child.

2

To build on [REDACTED]'s learning at school, next semester the focus will be on:

[REDACTED] will continue to receive specific feedback about her writing such as content, structure and paragraph writing. She will continue to develop her Post it Note thinking whilst reading to assist her to think more deeply about the text she is reading. [REDACTED] will continue to solve equations containing algebraic expressions, when the values are known. For example, $x+3=y$. What is y when $x=4$?

To support [REDACTED]'s learning, at home you could:

Continue to encourage [REDACTED] to write letters or emails to friends or family so she can practise her writing skills such as punctuation, spelling, adding interesting facts or details, revising and editing. Have [REDACTED] investigate costs for family trips together. For example, a visit to a theme park may include transport costs, entry ticket and food costs.

Program for Students with Disabilities

Teacher:

Classroom Teacher's Name

As a student funded under the Program for Students with Disabilities we aim to celebrate the diversity of our students needs and to provide accurate and continuous feedback on student progress.

This 'progress' format provides information on your child's progress within Victorian Curriculum levels and to recognise and celebrate the individual progress your child continues to make. This chart aims to show their level of progress in terms of their growth in learning over the last Semester.

Work Habits

	Needs Attention	Acceptable	Good	Very Good	Excellent
Reading and Viewing	----- ----- -----●-----				
Writing	----- ----- ----- -----●-----				
Speaking and Listening	----- ----- ----- -----●-----				
Number and Algebra	----- ----- ----- -----●-----				
Measurement and Geometry	----- ----- ----- -----●-----				
Statistics and Probability	----- ----- ----- -----●-----				
Personal and Social Learning	----- -----●----- -----				

Specialist Report

Specialist will Report on:

1. Work Habits - 5 Point Scale
 - Effort
 - Behaviour
 - Attitude
2. Work Habit Statements
 - These are the skills or knowledge the students have been using in the Specialist Subject (these statements will vary between Specialist Subjects)
3. Learning
 - Each Specialist Subject will provide a blurb on the learning that has occurred during the semester

Visual Arts

Teacher:

Specialist Teacher's Name

Work Habits

	Needs Attention	Acceptable	Good	Very Good	Excellent
Effort				●	
Behaviour				●	
Attitude				●	
Explore and express ideas				●	
Visual art practices				●	
Present and perform				●	

Learning Semester 1

In Visual Arts this semester, grade six students have had the opportunity to experiment with a range of materials and techniques from different artists, cultures and real world experiences. Students have looked at the art elements, warm, cool and complimentary colours to make their art work stand out. Students have developed their sewing skills, connecting to the real world where they made 'softies'. During this learning experience students designed their softie and made it to come to life through the use of buttons, material and thread. Students have looked at the artist Yayoi Kusama, and the photographer Brooke Pyke, and used their work to inspire their own creative designs and art pieces. Students were encouraged to reflect upon the artistic pieces and set goals to work towards next time.

Each Student will receive a separate report per Specialist class they have participated over the Semester.

Classes are: Performing Arts, Visual Arts, STEAM, Mandarin, Physical Education and Kitchen (Years 4 – 6 only).
